#2180 PERFECTION

05 // APPLICATION

Directions: For best results, use our BLACKSPEED long-throw polisher (#70339) and microfiber cutting (#70337) Please note : vehicle should be clean, cool, and out of direct sunlight. If necessary, clay vehicle surface prior to correcting paint. DA Polisher:

1. Apply 4 to 5 dime-sized drops of product directly to Finishing Pad.
2. Set DA Polisher at medium to high speed (4000–6000 OPM)
3. Using mild pressure, buff a 2'x2' section of the painted surface side to side and then up and down in overlapping passes.
4. Repeat Steps 1 and 3 until the surface has a high-gloss finish.
5. Wipe off any remaining residue using a clean microfiber towel. Hand Use: 1) Apply product to a clean, soft cloth or sponge. 2) Using an overlapping circular motion, wipe product onto painted surface. 3) Allow product to haze and buff off with a clean microfiber towel until the surface has a glossy finish.
