#01011

MOTOR OIL CONDITIONER

01 // OUTSTANDING FEATURES

- **Improves Performance** // specially formulated to reduce friction and wear.
- **Effective** // protects new engines during break-in and start-up.
- **Reduces Friction** // increases lubricating power of oil.
- **Helps Keep Engines Clean** // contains dispersants and detergents to help prevent sludge deposits.
- **Versatile** // can be used in all types of internal-combustion engines.
- **Compatibility** // designed for use in conventional and synthetic oils.
- Contains no solvents or chlorinated materials.

02 // DESCRIPTION

Scientifically formulated to increase performance by reducing friction and wear. MOC® Motor Oil Conditioner contains dispersants and detergents to help prevent sludge buildup. The product is carried by motor oil to where it lubricates internal parts to create a low-friction surface. This reduction in friction can protect new engines during break-in and start-ups. It may be used in all internal-combustion engines, including rotary and diesel.

03 // SPECIFICATIONS

TEST	ASTM METHOD	TYPICAL RESULTS
Appearance	N/A	**Oil**
Color	N/A	**Brown**
Odor	N/A	**Petroleum**
Specific Gravity	D1298	**0.88**
Density, U.S. (lbs/gal) @ 68°F, calculated	N/A	**7.32**
Viscosity, cSt @ 100°C	D445	**~4**
Boiling Point (°F)	D1120	**>400**
Flash Point (°F), based on components	D93	**>248**

04 // APPLICATION

Pour entire contents into crankcase with each oil change.

05 // PACKAGING

Fill	11 fl. oz. (325 mL)
Case Quantity	24
Case Weight	21 lbs.
