LOW FOAM CLEAN & DEODORIZE

#1051 EVAPORATOR CLEANER

01 // ABOUT

A specially formulated, low-foam cleaner designed to quickly remove odor-causing buildup from the evaporator core and housing of automotive HVAC systems. Its low-foam formula dissipates quickly, helping reduce cleanup time and allowing the HVAC system to return to service sooner. Cone-Style Applicator: Designed for direct injection into the vehicle's HVAC evaporator system, either through the cabin air-filter area or through the evaporator drain tube.

02 // PRODUCT BENEFITS

- **Removes contaminants from the surface of the evaporator core.**
- **Can improve the flow of air.**
- **Increase the efficiency of the air-conditioning system.**
- **Patented process for removing built-up contaminants.**
