#10161

PLP PENETRANT LUBE

01 // OUTSTANDING FEATURES

- Protects against corrosion
- Displaces water and moisture
- Penetrates and frees rusted parts
- Stop squeaks on the trunk, hood, and door hinges

02 // DESCRIPTION

PLP Penetrant Lube has a fast-acting penetrating formula that frees rusted nuts, bolts, and other parts. This versatile product displaces moisture, forms a protective coating and prevents the formation of rust on metal surfaces. PLP leaves a lubricating film to reduce sticking, wear and squeaks in moving parts. Industrial uses: lubricates and prevents rust on machine parts and equipment. May be used for easy assembly and disassembly. Automotive uses: penetrates rusted intake-manifold bolts, heat risers, exhaust systems, wheel lug nuts, suspension bolts, and control linkages. Displaces water and moisture from electrical contacts, connections and distributors.

03 // SPECIFICATIONS

TEST	ASTM METHOD	TYPICAL RESULTS
Appearance	N/A	**Transparent Liquid**
Color	N/A	**Yellow**
Odor	N/A	**Solvent**
Density, U.S. (lbs/gal)	N/A	**~7.01**
% VOC	N/A	**24**
Can Pressure, psi	N/A	**~98**

04 // APPLICATION

NOT FOR SALE OR USE IN CALIFORNIA OR OTC STATES Directions: Shake Well Before Using For hard-to-reach areas, use extension tube. To penetrate: spray freely on frozen parts, tap lightly, allow a few minutes to penetrate. On heavily rusted parts, it may be necessary to repeat the application. To prevent rust and corrosion: spray all parts regularly to maintain a barrier. To displace moisture: spray parts or surfaces, wait a few minutes and wipe off with a clean cloth. To lubricate: spray parts or surfaces liberally.
