#2160

MAGNA GLAZE

01 // OUTSTANDING FEATURES

- Seals and brightens all surfaces.
- Low dust formula
- **Versatile** // easy application by hand or high speed and orbital buffers.

Performance ratings // Abrasiveness 6 // Gloss 5 // Durability 4

02 // DESCRIPTION

A one-step polish for use on all painted surfaces. It removes medium oxidation, cleans, polishes, and protects. Magna Glaze™ is a thick cream with an off-white color (similar to Magna Bright #21403, but more aggressive).

03 // SPECIFICATIONS

TEST	ASTM METHOD	TYPICAL RESULTS
Appearance	N/A	**Viscous cream**
Color	N/A	**Off White**
Odor	N/A	**Solvent**
Density, U.S. (lbs/gal) @ 77°F	D1475	**~8.60**
Solids, %	E1868	**~18**
Brookfield Viscosity,CP	N/A	**30,000**
Body Shop Safe	N/A	**Yes**
VOC Compliant	N/A	**Yes**
Biodegradable	N/A	**No**

04 // APPLICATION

Hand Use: Dampen a clean cloth or applicator and spread Magna Glaze ™ on cloth or vehicle surface. Apply product using even pressure and circular motion. Allow to dry. Use a clean towel to wipe clean. Machine Use: Squirt Magna Bright™ onto vehicle surface. For best results, use an all-wool finish pad. Apply medium to heavy pressure at first, then gradually ease up until polish dries and develops a gloss. For extended protection and additional gloss, apply a finish wax as a final operation. Can be used with all-wool and foam pads.
