AUTOMOTIVE SHAMPOO
PRODUCT PERFORMANCE & DATA SHEET

#6268

TUNNEL WASH

01 // OUTSTANDING FEATURES

- Very-high-foaming car-wash liquid
- Will not leave streaks when used properly
- Designed to be used in proportioning system

02 // DESCRIPTION

A thin, orange liquid with a soapy aroma. It is an economical, concentrated shampoo that produces a rich, long-lasting foam for use on vehicles, trailers, boats, or motor homes. This product is thin enough to be used through proportioning systems and car-wash tunnels

Viscosity, Brookfield, cP	N/A	**~200**
Body Shop Safe	N/A	**Yes**
VOC Compliant	N/A	**Yes**
Biodegradable	N/A	**No**

04 // APPLICATION

Machine Use: Set proportioning or tunnel system to desired dilution setting. Place pickup hose in drum. Operate equipment according to manufacturer's directions. Hand Use: Use 1 part concentrate for 100 parts waters (approximately 2 oz. for each 1 gallon of water). Adjust dilution to desired strength for extremely dirty conditions. Rinse vehicle thoroughly. Apply solution generously, using a mitt. Rinse well. Wipe dry with a clean chamois. For best results, surface should be cool and out of direct sunlight.
