#0106 FUEL SYSTEM TREATMENT

01 // ABOUT

Fuel system deposits such as carbon can quickly build up on intake valves, fuel injectors and combustion chambers during normal operation of your vehicle. A highly concentrated supplement is added to the fuel system. This multi-purpose detergent cleans fuel injectors, intake valves and combustion chambers.

02 // PRODUCT BENEFITS

- **Cleans injector tips for better fuel flow.**
- **Improves performance and driveability**
- **Will not harm fuel system components, including catalytic converter.**
- **Can be used in all types of fuel.**
