ENGINE-OIL SUPPLEMENT

01 // OUTSTANDING FEATURES

- Specially formulated to reduce friction and increase the lubricating power of oil.
- Protects new engines during break-in and start up.
- Dispersants and detergents to help prevent sludge buildup.
- Can be used in all types of internal-combustion engines.

02 // DESCRIPTION

Scientifically formulated to increase performance by reducing friction and wear. MOC® Engine-Oil Supplement contains dispersants and detergents to help prevent sludge buildup. This reduction in friction can protect new engines during break-in and startups. It may be used in all internal combustion engines, including rotary and diesel.
