RODENT DETERRENT

#0160 BANISH RODENT DETERRENT

01 // ABOUT

Formulated with essential oils that deliver a smell and taste developed to deter mice, rats, and other rodents from burrowing into a vehicle's engine compartment and undercarriage. The heat of a recently used vehicle can last up to 24 hours, making it an inviting place for various rodents to seek warmth and begin nesting. By applying BANISH to these areas, a barrier is created to help keep away rodents and their offspring.

02 // PRODUCT BENEFITS

- **Developed to prevent rodent entry, nesting, and foraging.**
- **Easy and fast application**
- **Contains natural ingredients**
