#1050

A/C ODOR TREATMENT

01 // OUTSTANDING FEATURES

- Immediately attacks odors on contact.
- Cleanses A/C system of contaminants that can cause problems when blown onto occupants.
- Odors are eliminated, not masked.
- **Non-ozone depleting** // contains no CFCs.

02 // DESCRIPTION

A special blend of odor neutralizers that quickly eliminates odor-producing organisms that grow in the evaporator core and housing of air-conditioner systems. By cleansing the system, problems such as breathing discomfort and eye irritations may be avoided when the occupant turns on the air-conditioner. It is not just for A/C odors; it works equally well to control odors in the heating system during cold seasons. CLEAN SCENT #1050C

03 // SPECIFICATIONS

TEST	ASTM METHOD	TYPICAL RESULTS
Appearance	N/A	**Aqueous Solution**
Color (liquid portion)	N/A	**Cloudy White**
Odor	N/A	**Fresh**
Density, U.S. (g/ml) @ 68°F	D 4052	**~0.95**
Density, U.S. (lbs/gal) @ 68°F (calculated)	N/A	**~7.93**
NFPA Aerosol Rating	N/A	**Level 2 Aerosol**
Can Pressure, psi	N/A	**~75**

#1050 A/C ODOR TREATMENT

05 // APPLICATION

Do not sit in vehicle when product is being applied.

1. Shake can well before each application.
2. Start vehicle.
3. Turn on air- conditioner system and run fan on high setting. (Set system to external air vent, not recirculate.)
4. Spray product liberally through all air-intake vents located in the cowl (hood) area of the vehicle (below windshield).
5. Switch air-conditioner system to heat and spray additional product into same air-intake vents.
6. Let system run a few minutes.
7. Turn off air-conditioner system. Note: Product can be sprayed directly into evaporator during an air-conditioning service.
