EXTENDED LIFE

#04503 UNIVERSAL EXTENDED LIFE COOLANT

01 // ABOUT

A premix, 50/50 blend coolant with a premium ethylene glycol base and a high-performance anti-corrosion additives. The Hybrid Organic Acid Technology (HOAT) formulation is silicate and borate free. Additionally, our universal extended life coolant is designed to protect all cooling system metals for 5 Years / 150,000 miles. It also meets the protection requirements for American, and Asian cars and light trucks, including GM (Dexcool). The versatile formula will mix with all coolant / antifreeze formulations.

02 // PRODUCT BENEFITS

- **Protects against freeze-ups down to -34° F**
- **Protects against summer boil-overs up to 265° F**
- **Protects against rust & corrosion**
- **Protects cooling system metals, including aluminum**
- **Compatible with other Coolant/Antifreeze formulations**
- **5 year / 150,000 mile protection**
