#0104

COOLING-SYSTEM SEALER

01 // OUTSTANDING FEATURES

- Helps seal radiator, gaskets and freeze plugs.
- Non-metallic.
- Non-clogging.
- Compatible with all types of coolant.

02 // DESCRIPTION

MOC® Cooling System Sealer is designed to seal leaks caused by cracks or holes in the radiator, block and head gasket. It has the unique ability to seal leaks by forming a "scab" over the hole or damaged area. This nonmetallic formula is safe to use with all types of antifreeze and coolants. This non-clogging product may be used in all pressurized systems and will not harm plastic, metal or rubber parts.

03 // SPECIFICATIONS

TEST	ASTM METHOD	TYPICAL RESULTS
Appearance	N/A	**Clear & Bright**
Color	N/A	**Light Amber**
Odor	N/A	**Bland**
pH	D1293	**8.5-9.5**
Density (g/mL)	D4052	**1.07**
Density, U.S. (lbs/gal), calculated	N/A	**8.96**
Boiling Point (°F)	D1120	**>212**

04 // APPLICATION

Add directly to radiator after coolant/water mixture has been added. Do not add through flush machines. Run MOC® Cooling System Sealer through entire system. If MOC® Cooling System Sealer does not help stop a leak, this may be a sign of more serious cooling-system problems that should be addressed.
