RESIST CORROSION

#70367 PREMIUM COPPER GREASE

01 // ABOUT

Creates a protective shield against rust, oxidation, and various types of corrosion, extending the life of brake components. Premium copper grease works effectively in both high and low-temperature conditions, making it an ideal lubricant for brake shims and contact points between pads and hardware, ensuring optimal performance.

BEST APPLIED WITH PART #70368 HORSE HAIR BRUSH

02 // PRODUCT BENEFITS

- **Withstands heavy loads and high speeds.**
- **Good adhesion, anticorrosion, anti-oxidation.**
- **Excellent high-temperature protection and moisture resistance.**
