#0156

POWER STEERING SERVICE SOLUTION - RED

01 // OUTSTANDING FEATURES

- Reduces friction that can wear out the pump, valves, and gears.
- Conditions seals and hoses to help prevent cracks and leaks.
- Helps extend system life by reducing wear on internal components.
- Helps reduce squeals and chatter due to foaming.
- Outstanding cold weather performance.

02 // DESCRIPTION

A fortified power-steering fluid blend that is used in conjunction with a MOC® Power-Steering Fluid Exchanger. The formulation utilizes a high-quality base fluid which ensures increased oxidation stability and outstanding low temperature performance. The combination of this base oil with a top-quality viscosity modifier ensures excellent resistance to breakdown due to excessive shearing and pressure in power-steering systems. The solution also contains additional components which provide detergency, wear protection, rust inhibition, seal protection and anti-foaming characteristics. The formula meets O.E.M. Power Steering fluid performance requirements for Ford, GM, Chrysler, and Nissan.

03 // SPECIFICATIONS

TEST	ASTM METHOD	TYPICAL RESULTS
Appearance	N/A	**Clear**
Color	N/A	**Dark Red**
Odor	N/A	**Bland**
Specific Gravity @ 68°F	D4052	**0.85**
Density, U.S. (lbs/gal) @ 68°F	N/A	**7.09**
Viscosity, cSt @ 100°C	D445	**~7.00**
Viscosity, cSt @ 40°C	D445	**~32.0**
Viscosity Index	N/A	**180**
Boiling Point (°F)	N/A	**≥ 487**
Flash Point (°F) (based on components)	N/A	**> 248**

04 // APPLICATION

MOC® Power-Steering Service Solution-Red #0156 should only be used with a MOC® Power-Steering Fluid Exchanger.

1. Follow the MOC® Power-Steering Fluid Exchanger instructions to perform the exchange process.
2. Dispose of used fluid in accordance with local, state, and federal regulations.
