02 // DESCRIPTION

A fast-drying, solvent based, silicone tire dressing. Fast Gloss™ leaves a gloss protection on tires and exterior trim. It is crystal-clear and has a solvent odor. This product is not recommended for interior use due to its volatile and slippery properties.

04 // APPLICATION

Using a trigger sprayer, carefully apply a fine mist to the surface or, with a damp sponge, wipe down the surface. Remove excess product from surfaces with a soft, clean cloth (if insufficient time for total drying, wiping the surface with a cloth can aid in preventing “sling”). Warning: “Sling” can stain some painted-plastic surfaces around the wheel wells.
